

# 2014 年國際輻射風險溝通研討會

## 【報名簡章】

### 一、緣起

為提升國人對於游離輻射之正確觀念，並增進輻射從業及學術研究人員與民眾溝通之知能，特舉辦「2014 年國際輻射風險溝通研討會」，敬邀國際知名之專家學者以及國內各界專業人士發表演說，以達輻射風險溝通交流之目的。

### 二、日期

103 年 10 月 7 日(星期二)

### 三、地點

台大醫院國際會議中心(臺北市中正區徐州路 2 號 4 樓 401 會議室)

更多資訊可至會議場地官網查詢：<http://www.nthcc.com.tw/about06.html>

因停車場位置有限(需付費)，建議搭乘大眾交通工具前往。

### 四、對象

凡對輻射風險溝通有興趣者，皆可報名參加。(全程參與者可獲得輻射防護繼續教育積分或公務人員終身學習認證 6 小時)。

### 五、報名方式

- 1.請自行至行政院原子能委員會網站 (<https://seminar.aec.gov.tw>) 線上報名。
- 2.報名截止日：2014 年 9 月 30 日(星期二)，名額以 250 人為限，依報名先後順序為準。
- 3.如有疑問請洽-財團法人消防教育學術研究基金會  
電話：(02)2361-2119 陳怡萍小姐

主辦單位： 行政院原子能委員會

承辦單位： 財團法人消防教育學術研究基金會

## 七、研討會議程

| 時間 (Time)   | 主題 (Subject)                                                                                        | 演講者 (Speaker)                                                                                                                                  | 主持人 (Chair)                                                                              |
|-------------|-----------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------|
| 8:45-9:20   | 報到 (Registration)                                                                                   |                                                                                                                                                |                                                                                          |
| 9:20-9:30   | 致辭<br>Welcoming Remarks                                                                             | Dr. Chuen-Horng Tsai (蔡主委 春鴻)<br>Minister and Chairman, Atomic Energy Council (AEC), Taiwan, ROC                                               |                                                                                          |
| 9:30-10:20  | Risk Communication:<br>Linking Science with Society                                                 | Dr. Vincent T. Covello<br>Director, Center for Risk Communication<br>Director, Institute for High Concern Communication, New York City, U.S.A. | Dr. Ruoh-Tsann Lee (李處長若燦)<br>Director, Department of Radiation Protection, AEC, Taiwan  |
| 10:20-10:40 | 休息時間 (Coffee Break)                                                                                 |                                                                                                                                                |                                                                                          |
| 10:40-11:20 | Public confidence and the importance of trust in nuclear regulators - the Why, the What and the How | Professor Ray Kemp<br>Managing Director, Ray Kemp Consulting Limited, U.K.                                                                     | Dr. Shi-Ping Teng (鄧希平董事長)<br>President, Radiation Protection Association, Taiwan        |
| 11:20-12:00 | Common Mistakes and Important Lessons Learned in Communicating about Radiation                      | Dr. Kwan-Hoong Ng (黃群雄教授)<br>Professor<br>University of Malaya, Kuala Lumpur Malaysia                                                          |                                                                                          |
| 12:00-13:00 | 午餐 (Lunch)                                                                                          |                                                                                                                                                |                                                                                          |
| 13:00-13:50 | The Problems of Risk Communication- What, Where, When, Who, Why, and How                            | Dr. Reiko Kanda<br>Head of Special Research Center for Radiological Sciences, Japan                                                            | Dr. Tieh-Chi Chu (朱鐵吉董事長)<br>President, Nuclear Information Center, Taiwan               |
| 13:50-14:40 | Communication about Radiation to Fukushima Residents                                                | Dr. Atsushi Kumagai<br>Associate Professor, Education Center for Disaster Medicine, Fukushima Medical University, Japan                        |                                                                                          |
| 14:40-15:10 | 輻射安全溝通之經驗分享<br>Experiences on Radiation Safety Communication                                        | Professor S. L. Chang (張似璪教授)<br>Member of the Board, Radiation Protection Association, Taiwan.                                                |                                                                                          |
| 15:10-15:25 | 休息時間 (Coffee Break)                                                                                 |                                                                                                                                                |                                                                                          |
| 15:25-15:55 | 醫療輻射安全之民眾溝通<br>Public Communication in Medical Exposure And Safety                                  | Dr. Jeng-Fong Chiou (邱仲峰副院長)<br>Vice Superintendent, Taipei Medical University Hospital, Taiwan.                                               | Wen-Shi Liu (劉副處長文熙)<br>Deputy Director, Department of Radiation Protection, AEC, Taiwan |
| 15:55-16:25 | 輻射安全之溝通策略<br>the Communication Strategies of Radiation Safety                                       | Dr. Chiung-Wen Kuo (郭瓊文教授)<br>Director, Department of Medical Imaging and Radiology, Yuanpei University, Taiwan.                               |                                                                                          |
| 16:25-16:55 | 溝通技巧與真相說明<br>Communication Skills: Truth And Interpretation                                         | Dr. Lin-Mei Huang (黃鈴媚教授)<br>Professor, Department of Speech Communication, Shin-Hsin University, Taiwan.                                      |                                                                                          |
| 16:55-17:20 | 綜合討論 (Panel Discussion)                                                                             |                                                                                                                                                |                                                                                          |

註：議程如有變動，主辦單位將另行公告。
